I'm excited to represent the many communities in Cowan, and I've been reaching out to individuals and community groups so that I can hear the issues that matter most and introduce myself.

# GRANTS UPDATE

My office has been busy working with the community this year to administer grant programs.

**This year over \$350,000 has been approved for 58 Cowan community groups!**

There were so many more worthy project applications and it's always exciting to see the work being done in the community!

**With No Limits, an amazing not-for-profit, who will receive \$25,000 from this year's grants!**

## POWERING COMMUNITIES

Nearly \$70,000

This program helps not-for-profit organisations become more energy efficient.

Some of the groups that have been assessed for funding include **Fostering Hope, RSPCA WA, Sacred India Gallery, and the Northern Suburbs Men's Shed.**

## STRONGER COMMUNITIES

\$150,000

This program funds small capital projects to improve local community participation and contributes to the livelihood and vibrancy in communities.

Some of the groups that have received funding include **No Limits Perth, Marangaroo Family Centre, and the Perth North Tamil School.**

## VOLUNTEER GRANTS

Over \$130,000

This program supports not-for-profit organisations to support the volunteers in their group, for example, funding can be used to assist with training courses or equipment.

# Labor's plan for a **National Anti-Corruption Commission**

**1**

Investigate Commonwealth ministers, parliamentarians, personal staff, and other Commonwealth public officials.

**2**

Have the power to investigate allegations of serious and systemic corruption that occurred before or after its establishment.

**3**

Carry out its functions independently of government. With the Commissioner and any Deputy Commissioner serving a tenure comparable to a federal judge.

**4**

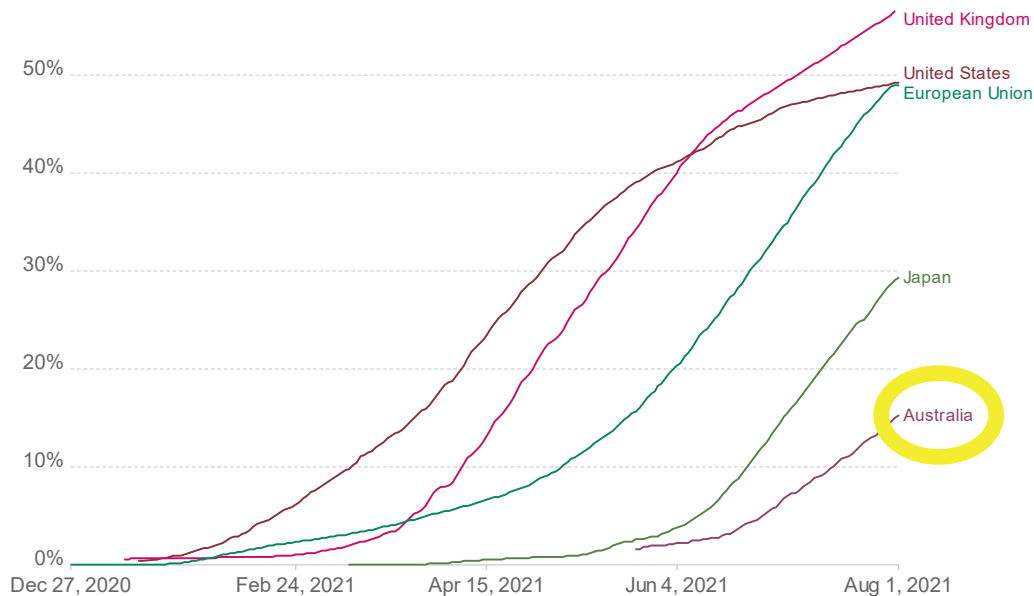

Overseen by a statutory bipartisan Joint Standing Committee of the Parliament, empowered to require the Commission to provide information about its work.

# COVID-19 UPDATE

This year Scott Morrison had two jobs, the **vaccine rollout** and effective **quarantine**.

Australia's COVID vaccine rollout is far behind other nations and hotel quarantine is not fit for purpose. The vaccine program is **ranked 36 out of the 38 OECD countries**, and there have been at least **27 leaks from hotel quarantine** causing lockdowns and tragic deaths.

The Morrison Government is responsible for both but it's clear that Scott Morrison has botched the rollout and won't take responsibility for quarantine.

## Labor's plan to **beat COVID-19**

- **Build quarantine facilities across the country, with at least one in every state.**
- **Fix the vaccine rollout.**
- **Have an effective mass information campaign.**
- **Begin manufacturing mRNA vaccines, like Pfizer, right here in Australia.**
